Features

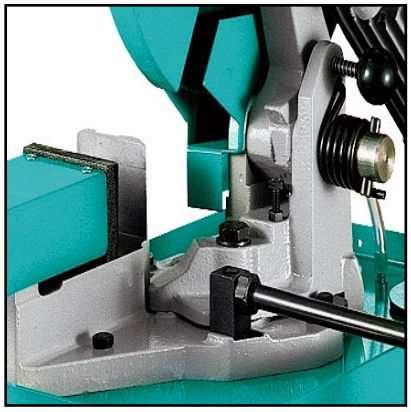

Small size

The small size of IDEAL 250 together with its ease of use (thanks to the start / stop system present in the handle) make it the ideal tool for use on yards and in small workshops. Small weight and the upper handle allow it to be transported in different work places.

Lubrication

The machine is equipped with a lubrication-cooling system with filter, automatic pump and 2l tank with hermetic seal.

Safety

IDEAL 250 is equipped with a support base for the material and a metal blade cover to protect the operator during use, as well as a head locking device.

Bar support — OPTIONAL

Bar support with adjustable height from 710 to 1100 mm. Capacity 150 kg
